

ActiFit Go

Thank you for purchasing this Merlin Product. Please read the instruction manual carefully before using the product.

The documentation provided will allow you to fully enjoy all the features this unit has to offer.

Please save this manual for future reference.

Instructions

- 1) Charge ActiFit Go using the provided charging clip before using it.
- 2) To browse through the menu, touch the Home button located on the right side of the device.
- 3) Touch and hold the Home button to select a function.
- 4) To connect the device to your smartphone, download and install "MISTEP" app from Google Play or App Store.
- 5) Open the app, you can register an account or simply select "Direct Use", and enter your personal details.
- 6) Select your device as "Bracelet".
- 7) From the menu in the app, go to "Device", select "Search for Bracelet", and connect to your ActiFit Go from the listed devices.

Menu Interface:

- 1) In the bracelet screen, a Bluetooth icon indicates that ActiFit Go is connected to a smartphone.
 - 2) Press and hold the Home button in any screen, to activate that particular function.
 - 3) Press the Home button once to enter Activity mode. Press and hold the Home button to activate Activity mode. ActiFit Go will record your heart rate, distance traveled, and calories burnt during your activity session.
 - 4) Press the Home button twice to enter Hear Rate Monitor (HRM) mode.
 - 5) Press and hold the Home button to activate HRM mode, and ActiFit Go will show you your heart rate reading.
- Note:** Ensure that you're wearing the band snugly on your wrist.
- 6) To check the total number of steps taken, press the Home button three times from the main screen.
 - 7) To check the total amount of calories burnt, press the Home button four times from the main screen.
 - 8) To check the total distance traveled, press the Home button five times from the main screen.
 - 9) To access device settings, press the Home button six times. Press and hold the Home button to enter settings mode.
 - 10) In settings mode, the first screen shows you your ActiFit Go's ID.
 - 11) In settings mode, the second option allows you turn on or off ActiFit Go's gesture mode.
 - 12) In gesture mode, the screen will turn off when your hand is resting at your side.
 - 13) The moment you raise your hand up, the screen will turn on.
 - 14) To browse through the menu in gesture mode, simply twist your wrist forward and back.
 - 15) In settings mode, the third option allows you to restart your ActiFit Go.
 - 16) To exit settings mode, press and hold the Home button on the fourth option.
 - 17) In the app, enter settings menu from the menu in the top-left corner.
 - 18) Here you can set alarms, activate reminder for incoming

calls and messages, turn sedentary reminder on, set heart rate warnings, activate anti-loss function, enable gesture control, and enable or disable functions that can be access from the bracelet.

- 19) From the app menu, you can activate the Remote Shutter function, where you can use ActiFit Go to take selfies remotely. Simply activate the function and press the Home button on the bracelet to take a picture.
- 20) You can directly share a screenshot of your activities log from the app itself to social media. Simply press the Share icon located on the top-right corner of the app interface.
- 21) To view your weekly or monthly progress, simply press the Progress Chart icon located at the top-right corner of the app.

Maintenance

- 1) Do not drop the device or pour water or other liquids on it.
- 2) Do not try to open the device. It has no user-serviceable parts.
- 3) To clean the device, wipe it with a soft, damp cloth.

FAQ

Q) How do I set the time on ActiFit Go?

- A) Once the device is connected to the app, it automatically syncs time and user data. You can also manually sync data from your bracelet to the app by swiping down on the main screen in the app.

Q) ActiFit Go doesn't display incoming call and messages notifications.

- A) Ensure that ActiFit Go is connected to the app. Allow "MISTEP" app access to your calls, SMS, and contacts, and keep the app running in the background. If your smartphone has security software, add "MISTEP" app to "Trusted Apps" list.

Q) ActiFit Go shows that it's connected to the app but is unable to sync user data.

- A) This is likely to occur if the device has lost Bluetooth connection with your smartphone. Try restarting the app, and if that doesn't work, restart your smartphone and try again.

LIMITED WARRANTY

Merlin Products are covered by a limited one-year warranty policy. If the product suffers from a manufacturing defect, the customer will receive a replacement if claimed within 15 days of the purchase date. Otherwise, the product will be inspected for possible repair options. The product will either be repaired and returned free of charge, or replaced. All repair services past the one-year warranty period will be charged for any repairs that need to be made.

If the client is located outside the UAE, or is otherwise unable to personally deliver the defective product to our service center or retail outlets, he/she may send it via post at his/her own cost. The repaired/replaced product will then be returned to the client via courier mail at Merlin's cost, as long as the warranty period is still active.

Important: This limited warranty DOES NOT COVER normal wear and tear, accidents, damage during transit, misuse, abuse or neglect. Attempting to disassemble the unit will render the warranty null and void.
