#### Connection devices

- Connecting with devices with VGA such as desktop and laptop: Connect the VGA terminal, Audio terminal and USB terminal of the VGA converter cable with the according port on PC, the other end connect with the video glasses.
- Connecting with devices with 3.5mm circle jack av out function such as mobile phone, MP4, PMP, PSP etc: Connect the AV converter cable to the circle jack port, the other end connect with the according port of the video glasses.
- Connecting with the devices with RCA etc AV OUT function such as TV, Set top box and DVD. Connect the circle jack with the RCA converter cable, then connect the RCA three terminal to the end device.

- The item can be connected with iphone4/4s, ipad1/2, iphone 5 etc apple devices, the converter cable is selectable accessories. It will work by connecting with the according converter cable.

### Usage

- 1) Connecting with the device correctly, turn on the power, the blue indicator light, the top left corner display "SEARCHING", searching the signal status, if searched the video signal will display image. If not, it will show "NO INPUT". At this moment, Please check the device whether there is signal output or not (some devices are needed to set up before output), if the signal output matching or not, connector assembly is stable or not.
- 2) When image displayed, it can be adjusted the brightness, contrast, image quality and volume.
- 3) When input the 3d format side by side, press the button "+/3D" converter into the 3d mode. The top left corner show "1280x768@60 3D". Please don't convert into 3d mode when input the 2d video source, or you will feel dizziness.

### Charging

The item can be charged by the PC USB port or USB charger (5V/500mA), Connecting the charging line correctly, insert the "DC IN" port. The indicator red light, it means charging, and it will crush out when full charged, there usually takes 3 hours for charging full.

Note: The port "DC IN" is for charging, and the product can be charged when connect with av port. However, Please don't charge through "DC IN" when connect with VGA port, because there is power supply for VGA port inside.

### FAQ

- Q) Not starting
- A) Check the battery electroless or not. Check again after connecting with the power adapter. If it is still cannot start up after charging, please contact our distributor.
- Q) Image is not so clear
- A) Check that if your eyes shortsighted more than 300 degrees or not; if the resolution of the output set up ok., to check it when connecting with TV and computer monitor. Check if watching 2d video source under the 3d mode.
- Q) No sound come out from the headphone
- A) Please check if the connector of the headphone has no problem. Also check if setting up the volume is at its lowest.
- Q) The device is not responding.
- A) Future Board's onboard processor has built-in protection feature that cuts off power supply to the wheel motors when the user's feet aren't properly placed on the pedals or when the user shifts body weight too quickly or if the user exceeds the device's speed limit (10 km/h).
- Q) Too much noise
- A) Please check if the connector of the headphone clean or not, dirt will cause the noise. Also check of the music doc. Corrupted or not, try to play the other music source to check it, if the music source corrupted, will cause too much noise or sound jumping.

### LIMITED WARRANTY

Merlin Products are covered by a limited one-year warranty policy. If the product suffers from a manufacturing defect, the customer will receive a replacement if claimed within 15 days of the purchase date. Otherwise, the product will be inspected for possible repair options. The product will either be repaired and returned free of charge, or replaced. All repair services past the one-year warranty period will be charged for any repairs that need to be made.

If the client is located outside the UAE, or is otherwise unable to personally deliver the defective product to our service center or retail outlets, he/she may send it via post at his/her own cost. The repaired/replaced product will then be returned to the client via courier mail at Merlin's cost, as long as the warranty period is still active.

Important: This limited warranty DOES NOT COVER normal wear and tear, accidents, damage during transit, misuse, abuse or neglect. Attempting to disassemble the unit will render the warranty null and void.
