

## Screencast

Thank you for purchasing this Merlin Product. Please read the instruction manual carefully before using the product.

The documentation provided will allow you to fully enjoy all the features this unit has to offer.

Please save this manual for future reference.

### Instructions

The Screencast allows you to mirror content from your phone (iOS or Android) to your TV using a cabled solution. In this guide we will show you how to connect the device and set-up your mobile to start casting.

This device is used in conjunction with the EZCast mobile application which can be found in the Google Play Store and iTunes Appstore. Please install this application before using this device.

[Google Play Store Link](#)

#### For iOS devices:

##### Hardware connections:

- Connect the screencast to your TV/projector using a HDMI cable.
- Connect a 5V/1A power supply to Screencast via the micro usb port.
- Connect your iOS device with a lightning cable to Screencast.

##### Mirroring:

The easiest way to connect to the screencast is to use 'Plug n Play' mode.

- When the screencast is switched on the device will be in one of two modes. Make sure it is in the 'Plug n Play' mode.
- Insert a small paperclip in the back of the unit to change the mode. If the mode is being changed please allow a few moments for the unit to reboot.
- Connect the iOS device via the lightning cable.
- The mobile device will pop-up with a 'Trust this computer' message. Please select 'Trust'.
- Wait a few moments for the device to start communicating. Soon the iOS device's screen will be displayed on the TV.
- The mobile device might "This accessory may not be supported". Please feel free to use this device normally as this is a default message from the iOS device.
- In this mode iOS 8.0 and above is supported.

##### Airplay mode:

Another way to connect to the screencast is using the Airplay mode. This mode is more difficult to initialise and is also used to access the setup menu of the device.

- After the Screencast is switched on ensure it is in the 'Airplay & setup' mode. Use a paperclip to change the mode if needed.
- Go to the settings of the iOS device and switch on 'Personal hotspot' for connections over IP. A message asking to 'Trust this computer' might

appear. Please select 'Trust'.

- Please swipe up on the iOS device to launch the iOS menu. Click on the 'Airplay Mirroring' feature and select the Ezcast device id from the menu.
- Your mobile should shortly start mirroring the mobile device.
- This mode supports iOS 9.0 and above.

##### Setup menu:

- To access the setup menu, connect to the Screencast using the 'Airplay & setup' mode.
- Once connected and mirroring, Open the 'EzCast' App.
- If the option is not automatically selected please the 'Wire' button to establish a connection.
- In the App click the drop-down menu in the top left corner and click on the settings option.
- In the settings menu the screen resolution and firmware update options are available.

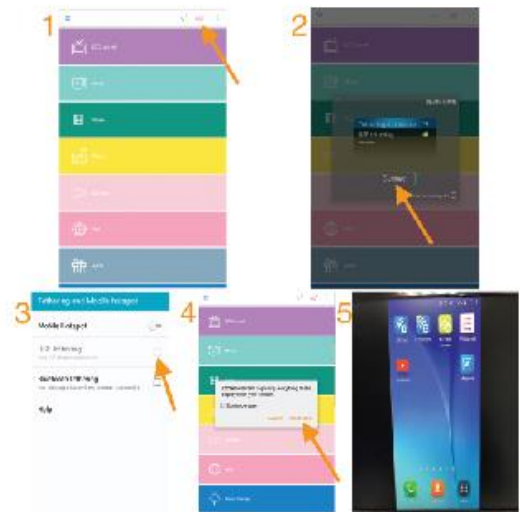

##### For Android devices:

##### Hardware connections:

- Connect the screencast to your TV/projector using a HDMI cable.
- Connect a 5V/1A power supply to Screencast via the micro usb port.
- Connect your iOS device with an Android data cable to Screencast.

##### USB tethering mode:

- 1) Connect the device via micro usb cable and open the Ezcast application.
- 2) Click on the 'Wire' button.
- 3) Choose option 2 for usb tethering. The app will open the settings menu to enable the mobile device's USB tethering mode.
- 4) Enable the usb tethering option.
- 5) Click 'Start now' the start mirroring.
- 6) This mode works for android version 5.0 and above

Some Android devices might not send audio. In such cases please connect a 3.5mm cable from the android mobile device to the Screencast. The audio switch settings might be need to be changed in the settings menu to enable this feature.

#### Settings menu:

- To access the setting connect to the device using the USB tethering mode.
- Open the Ezcast application.
- In the App click the drop-down menu in the top left corner and click on the settings option.
- In the settings menu the screen resolution, audio switch and firmware update options are available.

#### Maintenance

- 1) Retain these instructions for future use.
- 2) Clean the product with a damp cloth and mild soap.
- 3) Do not expose this product to rain or moisture.
- 4) Be careful not to turn or twist the cables used in this product too much as it can lead to malfunction and failure.
- 5) This product is not designed to be submerged in water and will malfunction if this occurs.
- 6) This product has no user serviceable items inside. Do not open this product as the user risk injury and would void the warranty.

#### FAQ

- Q) There is no picture on my screen.  
A) Please check the connections to the Screencast. There should be an HDMI and power cable connected. Also check the connection on to the TV. Press the power button at the back of the unit if it still does not come on.
- Q) My device android device is not mirroring my phone.  
A) Please ensure the "Ezcast" app is downloaded and on the device. Remember to enable USB Tethering on the device for mirroring.

#### LIMITED WARRANTY

Merlin Products are covered by a limited one-year warranty policy. If the product suffers from a manufacturing defect, the customer will receive a replacement if claimed within 15 days of the purchase date. Otherwise, the product will be inspected for possible repair options. The product will either be repaired and returned free of charge, or replaced. All repair services past the one-year warranty period will be charged for any repairs that need to be made.

If the client is located outside the UAE, or is otherwise unable to personally deliver the defective product to our service center or retail outlets, he/she may send it via post at his/her own cost. The repaired/replaced product will then be returned to the client via courier mail at Merlin's cost, as long as the warranty period is still active.

Important: This limited warranty DOES NOT COVER normal wear and tear, accidents, damage during transit, misuse, abuse or neglect. Attempting to disassemble the unit will render the warranty null and void.
