2. Place the PureAir, with power cable attached, securely in the vehicle's cup holder.

3. Insert the charger into the cigarette light socket of the vehicle.

Power button

Mode key

4. Press the power button for the unit to start.

5. Press the mode button to select the different purifying modes.

Full instructions:

LED indicators.

Red- Once the power button is pressed the red LED will light up. If it is pressed again the unit will switch off.

Red/blue/green – After the unit is switched on the air quality will be tested. The light will change color between "red, blue and green" for 2 minutes. It will stop flashing when the air quality sensor has heated up.

Blue – If the intelligence mode button is pressed during start-up this mode will be enabled and the blue LED will switch on. If the button is pressed again the unit will enter in manual mode.

Green- In manual mode when the wind speed button is pressed, the green light will light up and the fan's speed will go to high. If the button is pressed again the fan speed will go to slow speed.

Yellow- After the PureAir has operated for 1000 hours the orange light LED will light up. This indicates the filter screen needs to be replaced. Once the filter screen is replaced press the wind speed button for 3 seconds to clear the yellow LED.

Replacing the filter screen.

a.) Firmly hold the two metal parts of the unit. Gently turn it in opposite directions. The unit will separate in to two units. Turn over the top part of the unit and place on a table. The filter is in that assembly. Remove the old filter and replace with a new one.

b.) To reassemble please located the two dots on the back of each of the parts of the unit. Insert the two pieces into each other with the dots in close proximity. Gently turn the two pieces again unit it locks. Please do not force this action. It is a very gentle action, excessive force can damage the unit. When the unit is correctly assembled the two dots should align.

Maintenance:

1) Do not immerse this product in any liquid such as water.
2) Retain these instructions for future use.
3) Clean the product with a damp cloth.
4) Do not press buttons with force.
5) Do not use in high temperature or high humidity.

LIMITED WARRANTY

Merlin Products are covered by a limited one-year warranty policy. If the product suffers from a manufacturing defect, the customer will receive a replacement if claimed within 15 days of the purchase date. Otherwise, the product will be inspected for possible repair options. The product will either be repaired and returned free of charge, or replaced. All repair services past the one-year warranty period will be charged for any repairs that need to be made.

If the client is located outside the UAE, or is otherwise unable to personally deliver the defective product to our service center or retail outlets, he/she may send it via post at his/her own cost. The repaired/replaced product will then be returned to the client via courier mail at Merlin's cost, as long as the warranty period is still active.

Important: This limited warranty DOES NOT COVER normal wear and tear, accidents, damage during transit, misuse, abuse or neglect. Attempting to disassemble the unit will render the warranty null and void.
